

Dare to Do! Unlocking Potential Through Risk Taking

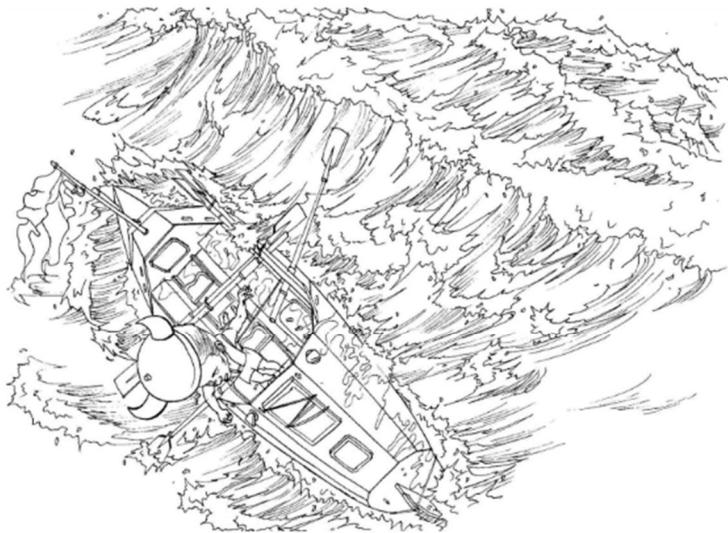

The greatest risk is to risk nothing

What's holding you back? In this energizing keynote, Christian Havrehed invites teams and leaders to break free from the comfort zone and take bold action. With lessons from rowing across the Atlantic with a Chinese soldier he hardly knew, running the Pyrenees alone, retracing ancient maritime routes to re-write world history, and pushing the Chinese government to change, Christian shows how daring to act, even when the outcome is uncertain, is the key to unlocking true potential.

This talk is designed to ignite courage, spark innovation, and build a mindset of resilience. Whether you're leading change, launching new initiatives, or developing future leaders, this is your call to Dare to Do!

What the Audience Will Learn

- How to assess risk
- How to be comfortable with risk
- Why avoiding risk limits growth
- Real-world examples of bold decisions leading to success
- Tools for building a culture of courageous thinking and action
